Some Physical and Chemical Characteristics of the Bay of Quinte

On Some Ancient Mounds Upon the Shores of the Bay of Quinte

This is the story of six of Canadas Warships HMCS NAPANEE, HMCS BELLEVILLE, HMCS HALLOWELL, HMCS TRENTONIAN, HMCS QUINTE (I), and the HMCS QUINTE (II). These histories give a unique account of the small ships that have been the backbone of the Canadian Navy during the Second World War and the Cold War. The stories record the accomplishments of these hardworking ships as well as the mistakes. This rich and
vivid account of an important part of Canada's Naval Service draws from the records of the ships, interviews with their crews, letters, diaries, newspaper articles, community libraries and photographs. You will learn about the HMCS NAPANEE as she fights a five day battle against twenty-four German submarines in one of Canada's most tragic convoy battles. Be with HMCS BELLEVILLE as she fights to rescue a torpedoed merchant ship and find out about how a German submarine sinks the HMCS TRENTONIAN late in the war killing six of her crew.

The book of quinte essence

Warships of the Bay of Quinte
Winner of the 2010 Ontario Historical Society’s Fred Landon Award for Best Regional History. Belleville, on the shores of the Bay of Quinte, traces its beginnings to the arrival of the United Empire Loyalists. For 30 years the centre of the present city was reserved for the Mississauga First Nation. White settlers who built dwellings and businesses on the land paid annual rent to them until the land was "surrendered" and a town plot laid out in 1816. The new town quickly became an important lumbering, farming, and manufacturing centre. Early influences include the Marmora Iron Works of the 1820s, the first railway in 1856, Ontario’s first gold rush in 1866, and prominent citizens such as noted pioneer author Susanna Moodie and Sir Mackenzie Bowell, Canada’s fifth prime minister. This is a personal history of Belleville, based on Gerry Boyce’s half-century of research. Embedded throughout are interesting and obscure stories about scandals, murders, and hauntings — the underbelly of the growth of a city.

Cornelius Nepos, Quinte-Curce, Justin, Valère Maxime, Julius Obsequens

Background information is given on the initiation of a multi-agency researchproject to compare limnological features of the Bay of Quinte, Lake Ontario, before and after reduction in phosphorus inputs. Water quality trends and changes in fisheries are summarized. The experimental management approach and ecological framework for this research are discussed in general terms. A total of 23 reports on chemical and physical limnology, phytoplankton, macrophytes, zooplankton, benthos, and fish accompany this introductory report.

Using a prosopographical approach that combines descriptive exposition, quantitative tabulation, and structural analysis, Randy Widdis determines the geographical and social origins of migrants, the distance and direction of migration corridors, and geographical destinations in both the United States and Canada. The study provides a new view of the invisible Anglo-Canadian, one of the largest and least understood immigrant groups in the United States. Widdis’s results show that there were many differences between Anglo-Canadians, and that their experience in the United States was much more complex than is usually assumed. With Scarcely a Ripple not only contributes to our
understanding of the dynamics of intra-regional, inter-regional, and return Anglo-Canadian migration but also interprets this movement in terms of the paradox of an emerging Canadian identity and a developing integration with the United States. It offers a historical geographical perspective on a subject that, in this era of free trade and globalization, is more relevant than ever.

Israel Tripp (1775-1842) and his brother, Richard (1788-1858), left Dutchess County, New York and settled in Ontario. Richard married Mary Jane DeMille and Israel married Susannah DeMille. Descendants lived in Ontario, New York, Saskatchewan, and elsewhere.

The Old Loyalist

The Tripps of Quinte

Étude sur Quinte Curce

It's the summer of Connor Trent's sixteenth birthday, and the stakes for him have never been so high. Connor's summer job at the Bytowne Tennis Club allows him to train at a historic facility. It also throws him into confrontation with his rich-kid rival, Rex Hunter, whom he will battle for a berth in the National Junior Tournament. After a series of fundraisers is sabotaged, Connor suspects that someone wants to bankrupt the club and take over its valuable riverfront property. A fabled trophy, rumored to contain hidden cash, might solve all of Connor's problems, if he can win it.
